Welcome to the GIANT Center home of The Hershey Bears and their Weight Room Facility — the training home of the AHL's most decorated franchise and 13-time Calder Cup Champions. Built to meet the demands of elite athletes, the facility features **REGUPOL aktivpro roll**, a proven performance flooring system engineered for strength, stability, and durability. Custom inlaid platforms using **REGUPOL crash** seamlessly integrate into the surface, creating a unified training environment built for Olympic lifts, explosive movement, and high-impact sessions. The space is finished in signature stock colors Grizzly Brown and Titan Tan — a bold, grounded palette that reflects the legacy and power of Bears hockey.

“The response from our (Hershey Bears) players and coaching staff to the REGUPOL-designed weight room facility has been tremendous. Following two back-to-back championships, giving these elite athletes a state-of-the-art weight room was essential. Elevating our offerings off the ice only helps what we see on the ice. Our strength and conditioning team and our partners at REGUPOL were vital in creating this space. Everyone is thrilled with the finished product.”

Bryan Helmer, Hershey Bears
Vice President of Hockey Operations
